Illinois U Library

The Journal of Engineering Drawing

INDEX, 1936-52

COMPILED
BY
IRWIN WLADAVER
COLLEGE OF ENGINEERING
NEW YORK UNIVERSITY

Guide to the Index:

EACH ENTRY IS REFERRED TO THE MONTH AND YEAR OF THE ISSUE OF THE JOURNAL AND TO THE PAGE ON WHICH THE ARTICLE BEGINS. FOR EXAMPLE, "M 38,16" MEANS THAT THE ARTICLE IS IN THE MAY, 1938, ISSUE AND IT BEGINS ON PAGE 16.

MOST OF THE ENTRIES ARE ACCOMPANIED BY F, M, OR N FOR FEBRUARY, MAY, OR NOVEMBER. BUT THE FIRST SEVEN ISSUES DID NOT FOLLOW THIS PATTERN. WHERE D, J, AND O APPEAR THEY MEAN DECEMBER, JANUARY AND OCTOBER. VOLUME AND ISSUE NUMBERS WERE NOT USED AS INCONVENIENT AND SPACE CONSUMING.

ALL ISSUES FROM DECEMBER, 1936, THROUGH NOVEMBER, 1952, ARE INCLUDED.

SUBJECT INDEX (PP. 2 – 5)

TO MAKE A SEARCHER'S WORK AS DIRECT AS POSSIBLE MANY TITLES ARE CONSIDERABLY ABRIDGED. IN SOME CASES, TITLES HAVE BEEN COMPLETELY CHANGED WHEN, IN THE OPINION OF THE COMPILER, THE ORIGINAL TITLES DID NOT GIVE SUFFICIENT INDICATION OF THE CONTENT OF THE ARTICLES.

ARTICLES DEALING SUBSTANTIALLY WITH SEVERAL TOPICS APPEAR UNDER SEVERAL MAJOR HEADINGS.

AUTHOR INDEX (PP. 5 – 8)

WITH FEW EXCEPTIONS, TITLES IN THE AUTHOR INDEX ARE ENTERED JUST AS THEY APPEARED IN THE JOURNAL. IN THESE FEW CASES, SPACE LIMITATION WAS THE DICTATING FACTOR. I.W.

VOL. 16 No. 3 - SUPPLEMENT **NOVEMBER, 1952** **SERIES No. 48**

PUBLISHED BY THE DIVISION OF ENGINEERING DRAWING AND DESCRIPTIVE GEOMETRY
OF THE AMERICAN SOCIETY FOR ENGINEERING EDUCATION.

SUBJECT INDEX, 1936-52

ADVANCED DRAWING AND RESEARCH
- ADVANCED COURSE IN GRAPHICS. D.P. ADAMS M 42, 2
- ADVANCED DEGREES IN GRAPHICS. A.S. LEVENS M 38,16
- ADVANCED DRAWING IN INDUSTRY. R.R. HAGEN M 52,23
- APPLICATION OF ADVANCED GRAPHICS. F.A. HEACOCK . . . . . F 52,11
- APPLICATION OF ADVANCED GRAPHICS: CRYSTALLOGRAPHY. H.T. EVANS, JR.. . . . . M 48, 8
- BELT TIGHTENER FOR MOTOR-COMPRESSOR. R.R. WORSENCROFT . . . . . F 42,10
- CENTERING ATTACHMENT. B.L. WELLMAN . . . N 41,17
- CLUTCH FORK FIG ASSEMBLY. H.W. SAVAGE. . N 40,13
- COMBINED BEARING CAP, SPEEDOMETER GEAR AND WORK HOUSING. H.W. SAVAGE. . . . . N 43,14
- DESIGN AND RESEARCH. F. MCFARLAND. . . . M 52,18
- GRAPHICS IN RESEARCH. A.S. LEVENS. . . . M 51,13
- POSSIBILITIES IN ADVANCED GRAPHICS. F. A. HEACOCK . . . . . F 48, 5

ADVANCED STANDING. SEE DIVISION, COMMITTEE

ANTHONY, GARDNER C.
- AN APPRECIATION OF. BY C.L. SVENSON . . . O 38, 3
- TRIBUTE TO. BY F.W. MING . . . . . J 38,15
- UNVEILING OF BAS RELIEF. BY A.W. LEIGHTON M 39, 2

ARMY SPECIALIZED TRAINING. W. E. STREET. . F 44,12

A.S.A. Z14 REVISION REPORT. R.P. HOELSCHER N 49,23

AXONOMETRY. SEE PICTORIAL REPRESENTATION .

CABINET. SEE PICTORIAL REPRESENTATION

CARTOGRAPHY, ISOMETRIC BLOCK DIAGRAMS IN. R.O. HUZARSKI . . . . . N 50,20

CHEMICAL ENGINEERING AND DRAWING. R.C. KINTNER . . . . . M 40,17

COLLEGE CREDIT FOR HIGH SCHOOL DRAWING. SEE HIGH SCHOOL-COLLEGE RELATIONS

COLOR IN TEACHING. SEE TEACHING AIDS

COMMITTEES. SEE DIVISION, COMMITTEES

COMMON ERROR IN TEXTBOOKS, A. G.J. HOOD. . M 39, 6

COMMON ERROR IN TEXTBOOKS, A. G.J. HOOD. . F 41,18

COMPETITION, DRAWING. SEE DIVISION, COMMITTEE ON.

CONFERENCES. SEE DIVISION, CONFERENCES

CROSS RATIO IN ELEMENTARY DRAWING. S.A. COONS . . . . . F 50, 9

CULTURAL VALUES. SEE ALSO ENGINEERING EDUCATION
- HUMANISTIC-CULTURAL CONTRIBUTIONS OF ENGINEERING DRAWING AND DESCRIPTIVE GEOMETRY. F.G. HIGBEE. . . . . F 48, 8
- WHAT PRICE CULTURE IN ENGINEERING DRAWING, DESCRIPTIVE GEOMETRY AND ELEMENTARY MACHINE DESIGN.
  - PART 1 BY J.L. HILL . . . . . O 38, 6
  - PART 2 BY H.W. LEET . . . . . O 38,10
  - DISCUSSION BY C.H. BLACK. . . . . O 38,14
  - DISCUSSION BY A.S. LANGSDORF. . . . . O 38,16
  - DISCUSSION BY H.C. SPENCER. . . . . O 38,16
  - DISCUSSION BY E.L. WILLIAMS . . . . . O 38,11

DESCRIPTIVE GEOMETRY. SEE ALSO ADVANCED DRAWING; PROBLEMS
- AIMS OF DESCRIPTIVE GEOMETRY. H.B. HOWE. M 40, 2
- AIRPLANE LINES AND LOFTING. B.D.WASHBURN M 41,12
- ANALYTIC AND GRAPHIC SOLUTIONS. H.C.T. EGGERS. . . . . F 51,26
- APPLICATION TO GEOLOGY. A.N. APPLEBY . . F 46,21
- DESCRIPTIVE GEOMETRY IN INDUSTRY. F.W. WARNER. . . . . M 47, 5
- DESCRIPTIVE GEOMETRY IN SHIPBUILDING. R.P. IODICE . . . . . M 52, 7
- DESCRIPTIVE GEOMETRY, MECHANICS, AND MATHEMATICS. W.H. TAYLOR. . . . . N 49, 9
- DESCRIPTIVE GEOMETRY METHODS. G.J. HOOD . O 37, 7
- DESCRIPTIVE GEOMETRY RIDES AGAIN. J. GERARDI. . . . . M 40, 9
- ISOMETRIC APPROACH TO DESCRIPTIVE GEOMETRY. B.M. ALDRICH. . . . . F 45,17
- MAKE IT PRACTICAL. J.D. MCFARLAND. . . . N 45, 5
- NOTATION AND NOMENCLATURE. (GUIDE LINES) F 45,11

DESCRIPTIVE GEOMETRY (CONTINUED)
- PROBLEM BOOKS AND DECREASED TIME. H.EGGERS D 36,14
- SHIPYARD DRAFTING--PART 1. A.M. MERRILL . F 43,17
  - PART 2. A.M. MERRILL . M 43,12
- STEREOGRAPHIC DRAWINGS IN DESCRIPTIVE GEOMETRY. R.T. HENNING. . . . . O 37,14
- TRACES VS. DIRECT METHOD. J.P. OLIVER. . F 48,19
- WHAT IS FUNDAMENTAL IN DESCRIPTIVE GEOMETRY? B.L. WELLMAN. . . . . F 50, 6

DESIGN
- ARTISTIC DESIGN FOR ENGINEERS. O.M. STONE M 38, 6
- DESIGN AND RESEARCH. F. MCFARLAND . . . . M 52,18
- DRAWING IN MACHINE DESIGN. V.L. DOUGHTIE M 46,17
- EMPIRICAL DESIGN, A PREPARATION FOR THEORETICAL DESIGN. L.D. HAYES . . . . . F 40, 6
- GRAPHICS IN THE BELFRY. A. BIGELOW . . . N 48, 8
- WHAT CAN DRAWING DEPARTMENTS CONTRIBUTE TO TRAINING FOR DESIGN? D.L. ARM. . . . . M 40, 6

DEVELOPMENTS
- DEVELOPABLE TRANSITION PIECES. C.A. HACHEMEISTER AND A. CEFOLA . . . . M 42,10
- DEVELOPMENT OF SHELL PLATING BY THE MEAN-NORMAL METHOD. W.J. DIXON. . . . . M 52,17
- PI SCALE, THE. G.W. MITCHELL . . . . . M 47,20
- RECTIFICATION OF A CIRCLE. P. BESSEMER . N 52,30
- RECTIFICATION OF A CIRCLE. J.S.RACKWAY. . N 48,26

DIMENSIONING
- DECIMAL DIMENSIONING ADOPTED BY FORD. A.F. DENHAM . . . . . F 40, 4
- DIMENSIONING. W.E. STREET. . . . . N 39, 7
- DIMENSIONING DRAWINGS. R.T. NORTHRUP . . F 40, 2
- DIMENSIONING PRACTICE. A.J. ALTZ . . . . F 41,11
- GUIDE LINES FOR DIMENSIONING. F.C. BRAGG. M 47,24
- JOB ANALYSIS FOR DIMENSIONING. J.G.H. THOMPSON . . . . . M 45, 7
- MEASUREMENT. J.N. ARNOLD . . . . . O 37, 1
- METHODS OF PRESENTING DIMENSIONING. R.E. MACHOVINA. . . . . F 48, 6
- MORE DIMENSIONING PRACTICE. S.B. ELROD . F 49, 6
- SIZE DESCRIPTION. J.M. RUSS. . . . . M 37, 9
- STUDENT CHECKING AND DIMENSIONING. A. JACKSON. . . . . F 42, 8
- SURFACE FINISH. R.P. TROWBRIDGE. . . . . N 51,23
- SURFACE ROUGHNESS SYMBOLS. J.A. BROADSTON N 45,29
- TEACHING TOLERANCES. J. GERARDI. . . . . M 47,12
- TEACHING TOLERANCES. J.GERARDI & E.J. MASSARD . . . . . M 48,15
- TEACHING TOLERANCES. J. GERARDI & O.B. NOREN. . . . . N 47,20

Visual aids for engineering drawing . . F 47, 8
Visual education. . . . . J 39, 5
ROWE, C.E. Basic models as an effective aid in teaching descriptive geometry. . . . F 45, 7
Descriptive geometry and optical effects F 51, 7
Methods and teaching of descriptive geometry . . . . . J 38, 1
Progress in the teaching of descriptive geometry. . . . . F 40,13
RULE, J.T. The development and use of stereographs for teaching descriptive geometry N 44,18
Graphics re-examined. . . . . F 47, 5
Notes on the projection of a circle . . N 52,27
Pictorial drawing . . . . . F 49,27
Problem solution. . . . . N 47,16
RULE, J.T. and A.L. COYNE. M.I.T. summer course in graphics for high school teachers. . . . . M 40,12
RUSS, J.M. Drawing division desires copies of old drawings . . . . . M 39, 7
Examination problems. . . . . M 37, 6
Hear ye! Hear ye! . . . . . M 48,20
Iowa produces another study sheet . . . F 48,22
Personality sketch of Professor Frederic G. Higbee . . . . . F 52, 7
Report of the publication committee . . O 37,21
Size description. . . . . M 37, 9
Some overlooked values of drawing . . . O 37, 8
The University of Iowa remembers the forgotten man . . . . . M 42,16

SAHAG, L.M. Engineering projection applied to the solutions of forces in space. . . . M 44, 2
SANDIFER, D.A.N. Standard drawing office practice in England . . . . . N 45, 9
SAVAGE, H.W. Clutch fork fig assembly. . . N 40,13
SAVAGE, H.W. and F. ZOZZORA. Combined bearing cap, speedometer gear and work housing an advanced drawing problem. . . . . N 43,14
SCHICK, L.E. Military graphics . . . . . M 49,11
"West Point"—U. S. Military Academy. . N 51, 9
SCHMELZER, R.W. Welcome to R.P.I. . . . . M 49, 5
SEEGER, J.C. and H.D. Richardson. Lucite models for student use in classrooms. . F 49,16
SENGER, W.L. Present day drafting requirements of industry . . . . . F 42, 2
SHAPIRO, S.E. Industrial illustration as it relates to the students and professional engineer. . . . . M 50,16
SHERMAN, R.M. Drafting problems encountered in structural steel fabrication . . . . M 51,18
SHUFELT, H.J. Comments concerning findings of a national survey of engineering drawing . . . . . M 43, 7
SKAMSER, H.P. A course for the training of engineering drawing teachers. . . . . F 51,10
Good ol' Joe Doaks. . . . . M 50, 7
SLANTZ, F.W. The editor's page . . . . . F 41, 1
Engineering drawing for national security. . . . . N 41, 8
W.G. Smith's "Defects in modern engineering education" - a discussion . . . . . J 38, 9
SMITH (Halifax, N.S.) and W.H.Bowes Problem solution. . . . . F 48,18
SMITH, W.G. Report of the committee on historical drawings . . . . . J 39, 1
Some defects in modern engineering education. . . . . J 38, 4
Some effective means of teaching descriptive geometry . . . . . M 37,18
Technical drawing for national defense. N 40, 9
SPENCER, H.C. Art applied to engineering . O 38,16
A message to the engineering drawing division. . . . . F 49, 5
New York, here we come. . . . . M 49, 5
So you have decided to be a drawing teacher , ... N 47, 5

AUTHOR INDEX

SPENCER, H.C. (continued)
Technical drawing curriculum at Illinois Institute of Technology . . . . . M 51,10
SPENCER, H.C. et al. Teaching clinic in engineering drawing and descriptive geometry F 49,11
SPRINGER, C. Drawing division program for the annual meeting at Dartmouth . . . . . M 52, 6
From the President's desk . . . . . N 51,12
General education through engineering drawing . . . . . F 52, 5
Minutes of the executive committee of the drawing division of A.S.E.E.. . . . . M 51,26
Uses and methods of production illustration. . . . . N 43, 2
STEWART, W.C. Screw threads for fasteners. N 46,14
STONE, O.M. Artistic design for engineers. M 38, 6
STREET, W.E. Development and use of training tests in engineering drawing. . . . J 39, 8
Dimensioning. . . . . N 39, 7
Drawing in the Army Specialialized Training program . . . . . F 44,12
SVENSEN, C.L. An appreciation of Dean Anthony . . . . . O 38, 3
The art of lettering. . . . . M 41,15
Drawing in engineering education. . . . N 48, 6
Professional development of the engineer F 47,15
Professor Thomas Ewing French . . . . . F 45, 4

TALLMADGE, FRANCES M. and J.N. ARNOLD. Specialized college training for RCA drafting detailers . . . . . F 45,13
TAYLOR, W.H. Some relationships between descriptive geometry and mechanics and descriptive geometry and mathematics. . . N 49, 9
THOMAS, A. Concepts of teacher training and teaching methods. . . . . N 43,19
THOMPSON, J.G.H. Job analysis for dimensioning drawings. . . . . M 45, 7
THORNDIKE, C.L. What secondary schools are doing to prepare students for college work in engineering drawing. . . . . F 48,14
TISCH, F.P. Unified and American screw threads . . . . . N 52,21
TOWNSEND, A.F. Drafting procedures that reduce costs . . . . . N 52,31
TOZER, E.F. W.G. Smith's "Defects in modern engineering education" - a discussion . J 38,14
TREACY, J. Production Illustration - a new profession. . . . . F 43, 6
TROWBRIDGE, R.P. Surface finish. . . . . N 51,23
TSCHUDI, T. Technique of line shading mechanical objects . . . . . M 47,10
TWIGG, J.F. Graphic multiplication . . . . F 52,27
WARNER, F.W. Application of descriptive geometry to industrial engineering problems M 47, 5
Development of students' ability to think and analyze in space. . . . . F 49,31
Welcome to Seattle. . . . . M 50, 5
WASHBURN, B.D. Airplane lines and lofting. M 41,12
WAYMACK, T.W. Color as a teaching aid for engineering drawing . . . . . F 52, 9
WELLMAN, B.L. The assembly and details for a centering attachment. . . . . N 41,17
The logic of visualization. . . . . M 49,15
What is fundamental in descriptive geometry . . . . . F 50, 6
WILLIAMS, E.L. What price culture in engineering drawing, descriptive geometry and elementary machine design . . . . . O 38,11
WLADAVER, I. and L.O. JOHNSON. College credit for high school drawing . . . . . M 52,12
WOOD, A.B. Report of the committee on minimum standards . . . . . N 48,22
WORSENCROFT, R.R. Belt tightener for motor-compressor. . . . . F 42,10
On what basis should the engineering colleges grant credit for high school drawing? . M 49, 8
Orthographic theory in perspective drawing . . . . . M 44, 7
A study in grading lettering. . . . . M 41, 6
Teaching fundamentals in engineering drawing . . . . . F 40,21

YOUNG, C.H. The descriptive geometry three-dimensional project. The Cooper Union engineering school — day session. . . . . M 52,13
A talk to beginning students in drawing. F 47,18

ZELLMER, E.J. Projected trimetrics . . . . N 50,13
ZOZZORA, F. and R.W. SAVAGE. Combined bearing cap, speedometer gear and work housing. N 43,14
